"The Small Ship Cruise Line," is a phrase my father coined over 50 years ago, back when we were the only cruise line of our kind. Today, small ship cruising in North America has never been more popular and we are pleased to offer you our collection of interesting close-to-home itineraries, just as we did in 1966.

Our agile ships will take you to some of America’s most historically rich regions. Whether your interest is history, architecture, birding, touring or just relaxing with friends, Blount Small Ship Adventures offers something for everyone.

Now in our 54th year, we invite you to enjoy a casual cruising experience. We offer a less commercialized environment where guests often share they feel like they are a personal guest of our family. Our itineraries are specially tailored to the active, inquisitive and eco-conscious traveler. On behalf of my staff and crew, we hope to have the opportunity to serve you during our 2020-2021 cruise season.

From the President

Warren, Rhode Island

Nancy E. Blount, President
In the early 20th century, the E.B. Blount & Sons Oyster Company thrives as oyster beds are bountiful in coastal Rhode Island.

1932
As a young Wentworth engineering graduate, Luther designs and builds a 16-foot kayak out of pine and canvas.

1938
The great New England Hurricane of 1938 devastates the Blount family’s oyster beds in Narragansett Bay.

1947
Luther becomes VP of E.B. Blount & Sons, innovating a new way of steaming clams that made its way into Campbell’s Soups clam chowder.

1949
Luther discovers a calling in shipbuilding during the construction of a new oyster boat for the family business and he establishes Blount Marine Co.

1947
Blount builds Miss Liberty for Circle Line Statue of Liberty Ferry Co.

1953
Luther establishes American Canadian Line.

1958
Blount Marine builds it’s 200th vessel, the Fire Island Miss.

1964
Word gets around about Luther’s family vacations on his private boat. Soon, neighbors and friends of family ask to join summer adventures on The Explorer. A vision to start his own cruise line begins to take shape in his mind.

1966
Luther continues working on his inventions. After exploring the Rio Dulce in a dugout canoe, he develops adventurous new itineraries and builds 2 cruise ships with new innovations.

1976
Blount Marine builds it’s 200th vessel, the Fire Island Miss.

1985
Luther continues working on his inventions. After exploring the Rio Dulce in a dugout canoe, he develops adventurous new itineraries and builds 2 cruise ships with new innovations.

1997
Luther builds his grand class cruise ships, carrying up to 100 passengers.

2000
The next chapter of the family business unfolds as Nancy’s son Peter joins BSSA.

2010
Following a complete retrofit of the fleet, the cruise line is rebranded to Blount Small Ship Adventures, honoring the legacy of Luther.

1997
Luther builds his grand class cruise ships, carrying up to 100 passengers.

The Retractable Pilot House
This patented feature allows our vessels to slip beneath low bridges and transit locks that typically exclude cruise ships. As a result of this invention, our ships are the only overnight cruising vessels able to navigate the historic Erie Canal.

Captain Luther Blount envisioned travelers getting closer to a destination. With a zest for discovering the unusual, a passion for remaining cozily informal and a flair for creating exceptional vessels, his legacy lives on. After 54 years of business, his patented designs and innovations continue to bring curious travelers as close as possible to adventure.

The Bow Ramp
Disembark directly from the ship’s bow for direct access to the loveliest of beaches and interesting terrain possible.

Shallow 6½ ft Draft
Blount's ships can cruise in less than seven feet of water, which means we can enter areas other ships cannot navigate. This avoids crowded ports and tourist traps so that our passengers can see the best an area has to offer.

Glass-Bottom Boat
This unique 21’ x 10’ craft will allow snorkelers and non-snorkelers alike to view marine life beneath the waves without getting wet! Winters only.
